

SAFETY DATA SHEET

CAN - 17 Calcium Ammmonium Nitrate Solution

Section 1 - Identification

Product CAN - 17 Calcium Ammmonium Nitrate Solution

Recommended Use: Use as a fertilizer.

Manufacturer TradeMark Nitrogen Corp.

Address 1216 Old Hopewell Road, Tampa, FL 33619 - USA

Phone (813) 626-1181 (800) 452-3107

24 Hour Chemtrec **Emergency** (800) 424-9300

Section 2 - Hazard Identification

GHS07

Signal Word: WARNING

Hazard Statements:

H302 Harmful if swallowed
H315 Causes skin irritation
H319 Causes serious eye irritation

Precautionary Statements:

P101: If medical advice is needed, have product container or label at hand.

P102: Keep out of reach of children.

P103 Read label before use

P260 Do not breathe fume, mist, spray, vapours
P264 Wash hands thoroughly after handling

P270 Do not eat, drink or smoke when using this product
P271 Use only outdoors or in a well-ventilated area

P280 Wear eye protection, protective clothing, protective gloves

P331 Do NOT induce vomiting

P301+P330 IF SWALLOWED: Call a POISON CENTER or doctor / physician if you feel unwell

P302+P352 IF ON SKIN: Wash with plenty of water

P304+P340 IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing

P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do.

Continue rinsing

P332+P313 If skin irritation occurs: Get medical advice / attention P337+P313 If eye irritation persists: Get medical advice / attention

P362 Take off contaminated clothing

P501 Dispose of contents / container according to local, regional, national, and international regulations

Secti	ion 3	- C	om	posi	ition

00011011	Composition		
Ingredients	Component	CAS. No.	Percent by Weight
	Ammonium Nitrate NH ₄ NO ₃	6484-52-2	20 - 40%
	Nitric Acid, Calcium Salt Anhydrous (2:1) (Ca(NO ₃) ₂)	10124-37-5	20 - 40%
	Water (H ₂ O)	7732-18-5	Balance

Section 4 – First Inhalation	If inhaled: Remove person to fresh air and keep comfortable for breathing. Provide artificial respiration if necessary.					
maiation	Seek medical attention if necessary.					
Skin Contact	If on skin (or hair): Take off all contaminated clothing. Rinse skin immediately with soap and water for at least 15 minutes. Seek medical attention if irritation persists.					
Eye Contact	If in eyes: Rinse cautiously with water for at least 15 minutes, while holding eyelids open. Remove contact lenses, if present and easy to do. Seek medical attention at once.					
ngestion	If swallowed: Immediately contact a physician or poison control center. Do NOT induce vomiting, unless advised by a medical professional. Give small quantities of water to drink. Never give anything by mouth to an unconscious person					
Acute Health Hazards	Moderate irritant of eyes, skin and contaminated tissue. Prolonged contact can result in tissue damage. Ingestion may be harmful or fatal. High levels of nitrates may reduce the bloods ability to transport oxygen causing headache, fatigue dizziness and blue lips and skin (methemoglobinemia).					
Section 5 - Fire	Fighting Measures					
Suitable Extinguishing Techniques & Equipment	Extinguishing Media: Use an extinguishing media suitable for the surrounding fire.					
Chemical Hazards From Fire	In a fire this material may decompose produce oxides of nitrogen and ammonia.					
Special Fire Fighting Procedures	Fire fighters should wear full-face, self contained breathing apparatus and impervious protective clothing. Fire fighters should avoid inhaling any combustion byproducts.					
NFPA Rating	Health - 0 (Least) Fire - 0 (Least) Reactivity - 0 (Least)					
Other	Do not allow run-off from fire fighting to enter drains or water courses.					
Section 6 – Acci	dental Release Measure					
Personal Precautions	Avoid splashing. Prevent exposure to spilled material with the use of proper PPE. Avoid breathing mist or vapor.					
Protective Equipment	PPE should include gloves, goggles or face shield and impervious chemical resistant clothing.					
Containment	Control the flow of product using dikes of soil, sand bags or other commercially available inert sorbent socks or booms Prevent entry into sewers, drains, underground or confined spaces, water intakes and waterways.					
n Case of Spill	Absorb product with inert absorbent. Avoid splashing or spraying. Contain and pick up spill in diked area. Prevent discharge to sewers or water ways. Follow all local, state, ferderal and provincial laws and regulations for disposal.					
Section 7 – Safe	Handling & Storage					
Precautions for Safe Handling & Storage	Open container carefully. Do not get this material in your eyes, on your skin, or on your clothing. Do not inhale vapors mists of this product. Use this product with adequate ventilation. Wash thoroughly after handling. Store in a well ventilated cool dry place. Do not freeze. Store away from direct sunlight and any sources of heat. Do not store this material in open or unlabled containers or tanks. Do not eat, drink or smoke while using this product. Workers should					

wash hands and face before eating, drinking or smoking. Incompatibility Avoid contact with combustilbe materials, strong acids, strong bases, and alkalis. Residue would be incompatible with combustible materials.

Section 8 - Exposure Controls / Personal Protection **Exposure Limits** Component Permissible Threshold Limit Short Term Immediately Exposure Limit Value Exposure Limit Dangerous to Life or Health Not Established Not Established Not Established Not Established Nitric Acid, Calcium Salt (2:1) (Ca(NO₃)₂)Ammonium Nitrate Not Established Not Established Not Established Not Established NH₄NO₃ Engineering Local or general exhaust. Ensure good ventilation of the work station. Eyewash facilities should be available. Avoid release into the environment via environmental exposure controls. Controls Personal Chemical safety goggles or safety glasses. Eyes Protective Hands Chemical resistant gloves. Equipment Respiratory None required under normal conditions. NIOSH approved respirator if there is a mist of the product. Impervious chemical clothing Protective Clothing Gloves Goggles Safety Glasses Chemical Resistant Clothing Section 9 - Physical & Chemical Properties Appearance and Clear liquid with little or no Specific Gravity 1.518 @ 68°F significant odor. Odor **Boiling Point** N/A No Data Available Molecular Weight Freezing Point 32 - 34°F (0 - 1°C) Solubility in Complete > 100g / L Water Vapor Pressure No Data Available Evaporative Rate No Data Available Gallons per Ton 158.7 (0.66 L/kg) 6 - 7 рН Salt-Out Temp 25°F (-3.9°C) Weight per Gallon 12.6 lbs / gal Flash Point No Data Available No Data Available Auto Ignition Temp Flammability Limits LEL No Data Available Not flammable UEL No Data Available Section 10 - Stability & Reactivity Reactivity Product is not reactive under normal conditions. Stability Product is stable under normal conditions. Hazardous Under normal conditions of storage and use, hazardous polymerization will not occur. Reactions Conditions to Do not allow product to evaporate to dryness, product residue may act as an oxidizer and support combustion. Avoid Avoid extreme heat and low temperatures. Avoid direct sunlight. Avoid incompatible materials. Avoid contamination by any source including metals, dust and organic materials. Incompatible Avoid contact with combustible materials, organic materials, strong acids, strong bases, and oxidizable materials. Materials Residue would be incompatible with combustible materials. Hazardous Decomposition Under normal conditions, hazardous decomposition products should not be produced. **Products**

Section 11 - Tox	cicology Information	Toxicology Information							
Routes of	Inhalation, ingestion or skin/eye absorption								
Exposure									
Symptoms and	Eyes Mild irritant.								
Signs of Exposure									
	Inhalation May irritate respiratory tract causing sneezing, cough and sore throat.								
A (11 10	Ingestion If ingested this product may cause burns to the mouth, throat, esophagus and possibly the digestive								
Acute Health Hazards	This product may be harmful if swallowed. This product may be irritating to the eyes, respiratory system and skin. The								
	nitrate component of this product may cause Methemoglobinemia. Methemoglobinemia is the primary long-term health effect. Repeated skin contact with this material may cause								
	dermatitis.								
Toxicity	No limits have been set for this material.								
	Component Analysis:								
	Ammonium Nitrate LD ₅₀ Oral Rat 4,820 mg / kg								
	Calcium Nitrate	LD ₅₀ Oral Rat	500 mg / kg						
Carcinogen	The International Agency for Research on Cancer has not classified CAN-17 for its carcinogenic potential (IARC 1987).								
California Prop 65									
	and/or reproductive	harm.							
\									
General Product	In high concentrations, this product may be harmful to either terrestrial and aquatic plant life. Harmful to fish and other								
Information	aquatic organisms.								
Persistance and Degradability	Readily biodegradable in plants and soils.								
Bioaccumulative Potential	Bioaccumulation: Not reported								
Mobility in Soil	This product may m	nove with surface	e or groundwater flo	ows.					
Other adverse	No known significant effects or critical hazards.								
effects	Ingradient name	Method	Species	Results	Evnocuro				
Ecotoxicity	Ingredient name Ammonium Nitrate		Species Fish	447 mg/L	Exposure 48 h				
	(6484-52-2)	Fresh Water	1 1011	++/ mg/L	TO 11				
	(3.31.02.2)								
		Acute EC50	Daphnia	490 mg/L	48 h				
		Fresh Water	•	Ü					
		Acute EC50	Algae	1,700 mg/L	10 d				
	.	Salt Water							
	Calcium Nitrate, anhydrous (10124-	LC50 Fish 1	Pisces	10,000 mg/L	96 h				
	37-5)								
		LC50 Fish 2	Lepomis Macrochirus	10,000 mg/L	96 h				

Section 13 – Disposal Considerations

Waste

Calcium Ammonium Nitrate is not considered a hazardous waste. Disposal must be done in accordance with local, state and federal environmental regulations. Place waste in an appropriate container with correct labeling.

The generation of waste should be avoided or minimized wherever possible. Empty containers or liners may retain some product residues. Avoid dispersal of spilled.

Section 14 – Transport Information

This product is not classified as hazardous as defined by 49 CFR 172.101 by the US Department of Transportation

This product is not regulated as a hazardous material for transportation as defined by Canada's Transportation of Dangerous Goods Information.

This product is not regulated as a dangerous good as defined by the IMDG regulations.

This product is not regulated as a dangerous good as defined by the IATA regulations.

Section 15 - Regulatory Information United States -This product has been reviewed according to the EPA Hazard Categories promulgated under Sections 311 and 312 of SARA Hazard Title III of the Superfund Amendments and Reauthorization Act (SARA) and is considered, under applicable definitions. Category to meet the following categories: Pressure - No Reactive - No Acute - Yes Chronic - No SARA Title III This product contains the following substances subject to the reporting requirements of Title III (EPCRA) of the Information Superfund Amendments and Reauthorization Act of 1986 and 40 CFR Part 372: CAS No. CERCLA RQ (lbs.) SARA Reporting 304 302 313 Yes⁽¹⁾ Ammonium Nitrate 6484-52-2 N/A N/A N/A (1) As nitrate compounds (water dissociable) CFRCLA / If this product contains components subject to substances designated as CERCLA reportable Quantity (RQ) Superfund, 40 Substances, it will be designated in the above table with the RQ value in pounds. If there is a release of RQ Substance CFR Part 117, 302 to the environment, notification to the National Response Center, Washington DC (800-424-8802) is required.

Calcium Nitrate Solution is a hydrated form of nitric acid calcium salt, which is listed on the Active TSCA inventory.

Section 16 - Other Information

Date of Issue 6/3/2022

Date of Revision Ju

June 2022 format update. November 2021 SDS revised sections 3, 9 and 12. June 2020 SDS Updated per GHS requirements. June 2019 TSCA Statement revised to include the word 'Active'. SDS Created October 2018.
